

## UWL-95S XD Wide Conversion Lens

Scan for detail

### How wide with INON lens underwater?

A wide conversion lens is essential for wide-angle imaging as the angle of view narrows underwater due to different refractive index from that on land.

AR Coating	Focusable ON Lens	U/WFOV Max.95°	XD Mount
Optical Glass	Made in Japan	Dual Use Land, U/W	

### Compact, lightweight wide conversion lens featuring quick lens installation and removal

Dual use on land and underwater, with a maximum angle of 95° wide imaging underwater and 159° fish-eye imaging on land. Compact and lightweight while supporting up to 1.0" sensor with 24mm wide end digital camera. An optional "Dome Lens Unit III" further increases underwater angle of view to approximately 141°.

## Dome Lens Unit III G (glass)

## Dome Lens Unit III A (acrylic)

### Capture your subject through "eyes of fish"

AR Coating	Focusable ON Lens	U/WFOV Max.150°
XD Mount	Optical Glass	Made in Japan

## XD Mount for PT-056/058/059

Enables quick and secure lens attachment and removal

### Easy installation

Easily installed with special tool.

Stopper

### No interference

The housing original optical cable adapter is not interfered by the XD Mount. INON L-type cable bush can be used as it is.

### No rattle underwater

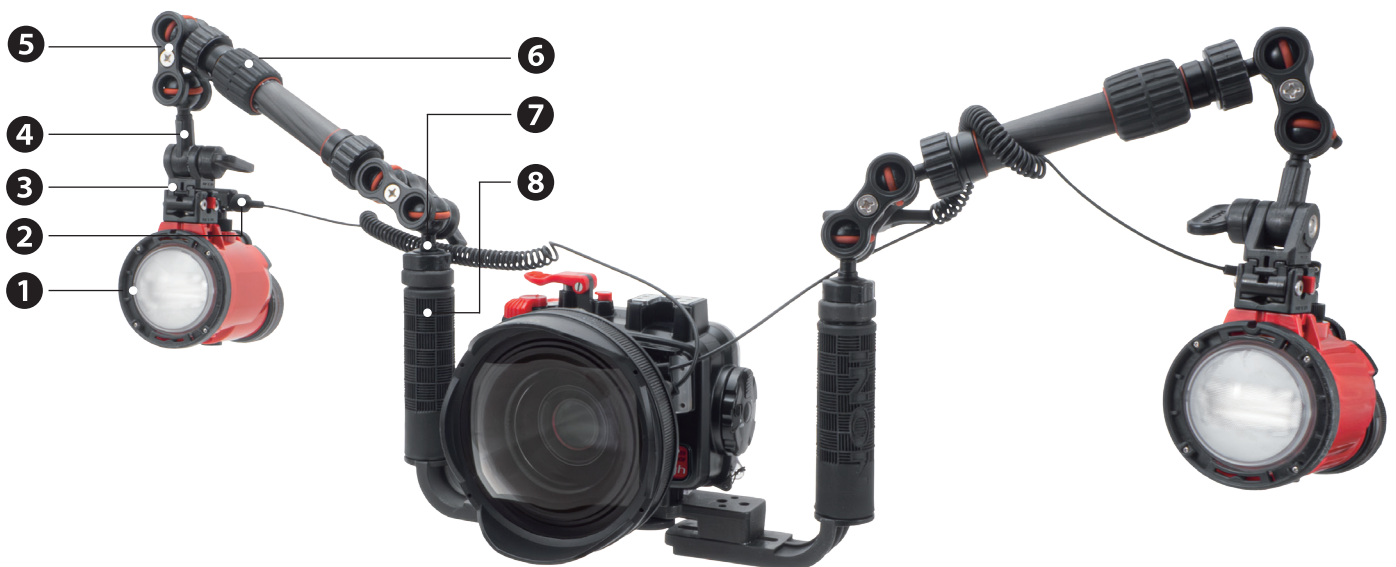

Designed specifically for compatible housings to prevent accidental rattling while diving. Both stability and ease of installation are ensured.

## Single Strobe

- ① S-220 Strobe
- ② Optical D Cable Type L Rubber Bush Set 2
- ③ Quick Holder Set S-Z
- ④ YS Adapter MV
- ⑤ Clamp III x 2
- ⑥ Carbon Telescopic Arm SS
- ⑦ Direct Base III
- ⑧ D5 Holder
- ⑨ D5 Base
- ⑩ UWL-95S XD Wide Conversion Lens
- ⑪ Dome Lens Unit III G
- ⑫ XD Mount for PT-056/058/059

## Dual Strobe

- ① S-220 Strobe
- ② Optical D Cable Type L Rubber Bush Set 2
- ③ Quick Holder Set S-Z
- ④ YS Adapter MV
- ⑤ Clamp III x 2
- ⑥ Carbon Telescopic Arm SS
- ⑦ Direct Base III
- ⑧ D5 Holder
